FIFTY-FIFTH ANNUAL REPORT

OF THE

BOARD OF TRUSTEES AND OFFICERS

OF THE

OHIO INSTITUTE

FOR THE

EDUCATION OF THE BLIND,

TO THE

GOVERNOR OF THE STATE OF OHIO,

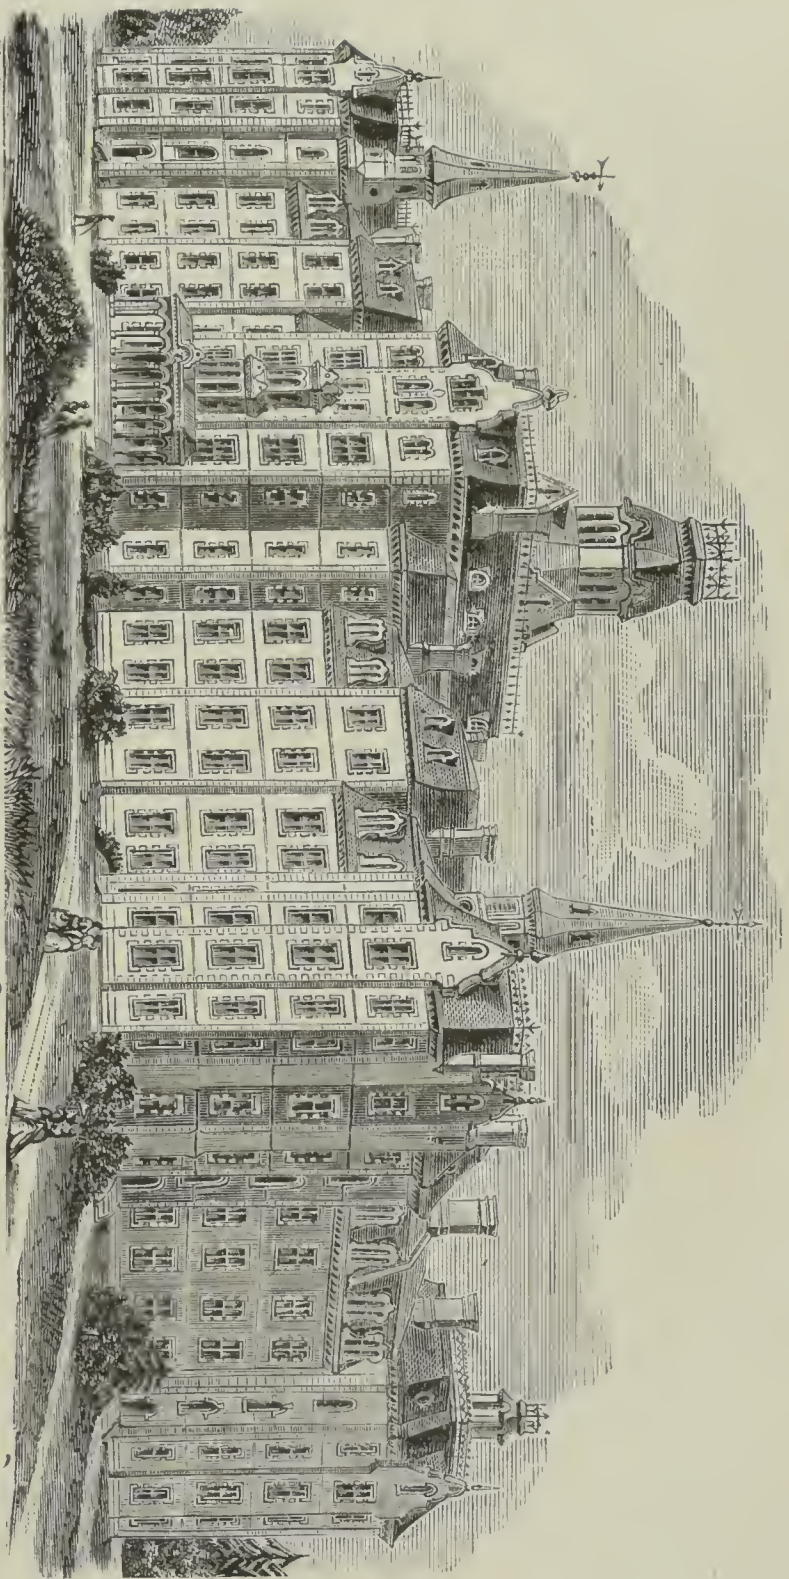

FOR THE

FISCAL YEAR ENDING NOVEMBER 15, 1891.

COLUMBUS, OHIO:

THE WESTBOTE CO., STATE PRINTERS.

1892.

OHIO INSTITUTION FOR THE EDUCATION OF THE BLIND.

TRUSTEES:

D. McALISTER, <i>President</i>	Columbus.
GEO. W. HAYS, <i>Secretary</i>	Cincinnati.
A. D. MARSH.....	Celina.
CHAS. ROOSE.....	Oak Harbor.
JOHN R. HANKEY.....	Bowling Green.

OFFICERS:

H. P. FRICKER, M. D	Superintendent.
J. W. MONAHAN.....	Steward.
MRS. H. P. FRICKER.....	Matron.
MRS. H. CHALFANT.....	Ass't Matron.
MISS LIZZY PERRY.....	Ass't Matron.
MRS. K. ARMSTRONG.....	Housekeeper.
DR. LEWIS KAHN.....	Physician.

LITERARY TEACHERS:

W. M. PORTER.....	Senior Grade.
FRANK LUMB.....	Sub-Senior Grade.
MISS LIZZIE B. ARMSTRONG.....	Junior Grade.
MISS MARY P. WRIGHT.....	Grammar Grade.
MISS HELEN COOK.....	Intermediate Grade.
MISS CELIA WENTWORTH.....	Primary Grade.
MISS JESSIE BAKER.....	Kindergarten.

TEACHERS OF MUSIC:

PROF. JACOB GOEHL,

JAMES McCOMBS,
JOHN BITZER,
JAMES FOSTER,

MISS JOHANNA DONOVAN,
MISS ROSENA ERNST,
MISS MARY A. TIPTON.

READERS OF MUSIC:

MISS KATE HENDERLICK,

MISS NETTIE POINDEXTER.

TEACHERS IN INDUSTRIAL DEPARTMENT:

A. L. BOHRER.....	Piano Tuning and Repairing.
HENRY HAUNSTEIN.....	Broom Shop.
MRS. JENNIE FRENCH.....	Cane-Seating.
MISS CORA WALSH.....	Sewing.
MISS ANNA HARRINGTON.....	Bead and Fancy Work.

Trustees' Report.

To His Excellency, JAMES E. CAMPBELL, Governor of Ohio:

DEAR SIR: In compliance with the provisions of law, we, as Trustees of the Ohio Institution for the Education of the Blind, respectfully submit this, the fifty-fifth annual report of the said institution, embodying therein the reports of its officers.

The report of the Physician shows the health of the pupils to have been good, with few exceptions, during the year, and the household free from epidemic or contagion of any kind; whilst that of the Steward shows the finances of the institution to be in a most satisfactory condition.

The Superintendent reports the school to be fully up to its former standard of excellence, although the average attendance is shown to have fallen off from that of former years.

The proposition to employ an Oculist for the institution seems to have engaged his thoughtful consideration, and to this feature of his report we direct your especial attention.

We find it necessary to renew our request of last year for some enactment allowing the admission of persons between the ages of twenty-one and twenty-three years, who may have become blind after the age of nineteen, for a period of three years.

The causes for this request were so fully given in our last year's report that we deem it unnecessary to repeat them here, though a brief statement of the more prominent reasons may be of necessity.

Pupils, under the present system, entering between the ages of fourteen and twenty-one, may remain for a period of seven years, making the extreme limit of age, substantially, twenty-eight; whilst those becoming blind at or about the age of twenty-one are deprived of the benefits of the institution altogether.

There should also be some enactment placing our institution, and probably the other educational institutions of our State, under the same system of laws governing our public schools.

The primary object of this suggestion is to have some tribunal designated from which all applicants for positions as teachers must procure certificates of competency before they can be appointed to any of the educational positions.

Such enactment as this would, in our judgment, preclude the possibility of any unworthy person who might have political influence, get-

ting or holding any such position to the detriment of the blind people of our State.

Sections 4065 and 4074, and probably some others of our Revised Statutes, might be readily amended so as to apply to our State institutions as well as to our common schools.

We called attention also, in our last year's report, to the deficiency of our gas supply, and now find it necessary to say the defect has not been remedied, for want of the necessary funds. Something will have to be done in this matter. Either our gas supply will have to be increased or some other system of light introduced.

It is altogether probable that the introduction of electric light into our offices and the more commonly used of our rooms, might be the most economical method of overcoming the difficulty.

The matter of a gymnasium for our pupils has been recommended so often heretofore that we feel to renew the request here would be but a useless waste of time and space; yet, if gymnasiums are of benefit to any, how much more so to those deprived of the ordinary means of exercise by reason of blindness?

Some improvement in our ventilating system would undoubtedly be a prudent guard against the possibility of epidemic among our pupils, as their present supply of air comes directly through the basement. Our heating system, also, is very defective, and ought to be improved.

The following are the estimated requirements for maintaining the institution for the coming year:

Current expenses.....	\$45,000 00
Salaries of officers and teachers.....	15,000 00
General repairs	3,400 00
Steam heating and pipe fitting.....	1,000 00
Books and school apparatus.....	1,000 00
Furniture, bedding and carpets.....	2,000 00
Repairing walks and grounds.....	1,500 00
Ventilation	1,000 00
Electric light.....	3,000 00
Elevator	1,500 00
Trustees' expenses.....	600 00
Total.....	\$75,000 00

All of which is most respectfully submitted.

D. McALISTER, *Pres't.*,

G. W. HAYS, *Sec'y.*,

CHAS. ROOSE,

J. R. HANKEY,

A. D. MARSH.

Superintendent's Report.

To the Board of Trustees:

GENTLEMEN: I respectfully submit the following report for the fiscal year ending November 15, 1891:

In addition to the number of pupils enrolled and the average present for the fiscal year, I have also given the number enrolled and average attendance for the last term, and also the same for the present term to date.

I have also given the number of classes, and the number of pupils in the different branches of the school work as organized for this term.

You are also advised as to the number of officers, teachers and employes and their salaries.

In connection with the report of the trustees, steward and that of the physician; the present constitutes the fifty-fifth annual report of the institution.

RECORD FOR TERM FROM SEPTEMBER 11, 1890, TO JUNE 18, 1891.

New pupils entered: Males, 24; females, 14; total.....	38
Enrolled: Males, 129; females, 95; total	224
Average attendance.. ..	202

RECORD OF FISCAL YEAR ENDING NOVEMBER 15, 1891.

New pupils entered: Males, 17; females, 16; total.....	33
Enrolled: Males, 139; females, 108; total	247
Average attendance.....	203

RECORD FOR TERM FROM SEPTEMBER 9, 1891, TO NOVEMBER 15, 1891.

New pupils entered: Males, 8; females, 12; total	20
Enrolled: Males, 117; females, 93; total	210
Average attendance.. ..	205

Counties represented..... 68

Counties not represented..... 20

Considering the number of counties that have no pupils here. I fear that the parents and those whose duties in the different counties require them to see that all children of school age should be at school, are not seeking the advantages that the State school for the blind affords for this class of our school youth.

Franklin county, with its 26 pupils, still leads Hamilton (having 22), and Cuyahoga (having 23), by a small number, though much smaller in population than either of them. This is partly due to a number of parents having pupils here moving to Columbus in order to be near their children when here attending school.

CHANGES AMONG OFFICERS AND TEACHERS.

I have but one to mention, viz.: Miss Nannie B. Moore, kindergarten teacher, who tendered her resignation in June last, to become Mrs. G. E. Cook, of Bryan, O. Miss Jessie Baker, a former music teacher in the Institution, was appointed to continue this branch of our school work.

OCULIST.

I have given the matter of employing an oculist in connection with the school, a good deal of thought and attention, and am fully persuaded it is both impracticable and inadvisable. In this respect I have modified my former views somewhat, views that were based upon insufficient consideration.

This Institution is a *school* and should be kept so in its strictest sense. Such is the intention of the law, and I am fully convinced it should not be changed in this respect. The facilities in the many cities, hospitals and even in the larger towns in the State afford an abundance of opportunity to have all *curable* eye troubles treated and cured, and in far less time than could be done in an establishment mixed in its character as a school and hospital together would be. It would be a detriment to both the school and the hospital features of the Institution.

The school work should not be delayed by a number of hospital cases, and the eye troubles should not be prolonged as they would be by the unfortunate victims being obliged to attend school.

If they need such special care and treatment, it should be in hospitals, where such treatment is provided continuously until they are well, or not needing further treatment, and then return to school work, either here or in the ordinary schools. A school with hospital features would be unsatisfactory to teacher, pupil, physician and the State. Hospitals are numerous and accessible, and should be kept separate from the schools, in my opinion and judgment, and such separation will be for the best interests of all concerned.

ADULT BLIND.

The adult blind, or those over twenty-one years of age at least, should in my judgment, learn the broom trade at the Iberia Home for the Blind.

Before the Home was established it was necessary for the adult blind to be admitted here for the purpose of learning a trade, but this is no longer necessary, for the trade can be learned there just as well as here.

There is no trouble in a blind man of ordinary intelligence learning the broom trade within four to six months: after which time he can be self-supporting, and if at all industrious and energetic, can bring to the credit side of his account, in addition to paying expenses, eight to twelve dollars a month. By this means he becomes more independent, saves the State the expense of caring for him a year or more, and leaves the broom department of the Institution, if thought best to continue it, wholly for the use of the pupils. There are many good reasons why the blind pupils of school age should be separated from those their seniors by many years. It will be necessary to make a slight change in the law concerning admission to the Home, to effect this result.

I would advise the plan I have suggested, believing it to be in the interest of the adult blind, and also for the pupils of school age, and a great saving in expense to the State.

DEATHS.

That unwelcome visitor, death, has visited our Institution family but twice within the last year.

The first victim was Miss Anna Doran, a young lady pupil of 18 summers, who died on the 23d of last December, at her home in Zanesville, after a long and painful illness.

The second is the recent death of Charles Carey, who died on the 8th of this month at his home, after a long siege of ill health.

Mr. Carey had been an employe in the Institution since 1877. He was always kind and obliging, faithful and dutiful in the work assigned him. Although miserable for a year past, he did not relinquish his work altogether until a few days before his death. He deserved and had the respect of all in the house, and his demise will be sincerely mourned by all those who have been associated with him in the past, and by all those pupils who have known him for years gone by.

THE MUSICAL DEPARTMENT.

The musical department of the Institution furnishes the greatest opportunity for the greatest number of pupils to become self-supporting when their studies are completed here; and for this reason, it seems to me, it is the most important branch of our school work.

The literary work is necessary to fit the pupil to grasp the requirements of a musical education, for without a literary education a pupil would quite likely be a failure as a musician.

Of those who leave here but few will make a success in life by their literary attainments alone; but combined or finished with a thorough knowledge of music, the opportunities for a profitable living are numerous. Many can be tuners of pianos and organs. Many can teach music, others can find good employment as singers, or players of some musical instrument.

These considerations make it of the greatest importance that the musical department should be highly rated, and the best talent secured to take charge of this department. Thorough and competent teachers should be selected, teachers who know what the community need, and how the blind can be taught to meet these requirements. Such teachers should not only be skilled in their work, but should be earnest and diligent in their calling. A thousand times better such a teacher have no politics than be a politician and not possess such attributes. It is a great wrong to both pupil and the State to let any consideration but that of special fitness influence in the selection of teachers in the musical department of the Institution.

INDIGENT AND HOMELESS BLIND.

I respectfully recall your attention to what I said under this head in the last report.

I have taken a good deal of pains to discuss the matter with tax payers, as they have called at the institution, and with many others that I have met, and have never failed to find them in full sympathy with the proposed plan of relief to a most unfortunate and helpless class of our people.

I hope this matter may be pressed upon the attention of the Governor and the Legislature, believing fully the relief sought will be granted. When this is done the expenses of this Institution can be largely reduced, for it can be relieved of a large number that are now here more for a home than for school purposes.

Confine the work of this Institution strictly to school work, conduct it on economic and business-like principles, and by the elimination of all political considerations, thousands of dollars can be saved that can be applied to a *permanent* home for a class that otherwise have no home to go to. I quote from last year's report, page 17, what I then said on this subject. I know it will meet the approval of every tax payer in the State who has been endowed by a sense of justice and humanity.

INDIGENT AND HOMELESS BLIND.

[From report of 1890.]

"Institutions for the benefit of the insane, blind, deaf and dumb shall always be fostered and supported by the State, and be subject to such regulations as may be prescribed by the General Assembly." Constitution, Article VII, Section 1.

The General Assembly has done nobly and well from time to time, in providing for the classes mentioned in the above section of the constitution; and yet it has not done all that it ought to do, and probably will, when its attention is called to the subject, which I hope the Trustees will do in a most earnest manner in their report to the Governor. The section of the constitution quoted says: "Institutions *shall* be fostered and supported by the State, etc."

The language used in the constitution is more than permissive; it is a mandate, and a duty, when the circumstances arise, for the General Assembly to make the proper provisions. Under this section of the constitution we already have a State school for the blind where they can get an education and learn several trades. A "Working Home for the Blind" has also been established at Iberia, good in itself, and useful so far as it goes; but as it will accommodate and furnish employment for only about thirty, it does not relieve very largely the class intended to be benefited. The school facilities are quite ample for the blind of the State, and will be for many years to come, but there is a class for whom no provision is made by the State, and which should no longer be delayed, viz.: The indigent and homeless blind. Their numbers are not so large, but what the State can amply provide for them in a suitable, comfortable and inexpensive manner. It does not need a large and costly asylum for this purpose, but might be arranged on the cottage plan in two or more places in the State.

The details can be easily arranged when the principle is once recognized and the Legislature sets about doing this one of the most humane of charitable acts. There is something shockingly repulsive in the thought that the State will give ten, twelve or fifteen years of schooling to the blind, burnishing up their minds with literary and musical accomplishments, and then trust to their making a living or going to the poor houses.

To be blind is not only a misfortune, but largely a helpless calamity, and no worthy blind person in the State should be without a comfortable and attractive home, and need not be if we, who are interested in their welfare, but do our duty.

The people of our State are noble-hearted, generous and humane to a fault, and I feel that they are ready and willing to do their share as tax-payers when they have an opportunity.

I most earnestly commend this subject to your consideration and approval, and trust you will leave no proper effort untried to have the matter properly laid before the Governor and Legislature.

WALKS.

The walks and roadway in front of the Institution that have been so badly out of repair for some years, have been replaced by a cement walk, adding greatly to the appearance of the grounds, and to the comfort and convenience of those who have to use them.

The walk in the boys' court, long since worn out, has also been replaced by a cement walk.

These improvements, though somewhat expensive, were greatly needed and are fully appreciated by the pupils.

ELECTRIC LIGHT.

The next and much needed improvement will be some system of lighting the Institution, and I would recommend an electric light plant.

Although the Institution is lighted with gas, the service is very poor and unsatisfactory, and has been so for many years, and can not be made much better without a large expense.

It would be much cheaper to light the Institution with electricity, than to attempt to make the gas light what it ought to be, and what the needs of the Institution require.

I would respectfully ask that an appropriation be asked for for the purpose of putting in an electric light plant.

COOKING RANGE.

The cooking range belonging to the pupils' kitchen is nearly worn out and ought to be replaced by a new one. I would also recommend the addition of more rooms in the central part of the building for the use of the employes to take them out of that part of the building in use for the pupils. There is plenty of space for this purpose and it can be made convenient with but little expense.

INVESTIGATION BY THE BOARD OF STATE CHARITIES.

Their report has not yet been made public, nor have I been able to learn the nature of their findings, so that neither the report nor a synopsis of it can be embodied here.

The motive that led up to the investigation is still fresh in my mind, and may be reason enough for my saying something about it at some future time.

A kind Providence has blessed the institution with more than the average amount of good health for the past year, which has added greatly to the success of our school work and its attendant happiness.

To those officers and teachers whose efforts have been in behalf of the honor, efficiency and good name of our school, I extend my most sincere thanks.

H. P. FRICKER, M. D.,
Superintendent.

November 15, 1891.

Suggestions.

To the Parents and Guardians of Blind Children and Youth:

The age at which it is best for children to enter the institution depends very much upon the circumstances of the families to which they belong. If they can be under good influences at home, can have the care of mothers and sisters, can take exercise in the open air, can be taught the use of words, can learn to count, and commence learning to read, it is unquestionably better for them to remain at home until they are ten years old; but if they can not receive proper care, and be taught some of these things, they should come at the age of eight or nine years.

The following are some of the things which may be learned at their homes:

1. To count and number, and to add, subtract, multiply and divide, etc.
2. The multiplication table.
3. To spell common words, beginning with monosyllables.
4. The meaning of common words.
5. The letters in raised and point print.
6. Items of general information. Every blind child of six or seven years old should know the points of the compass, the name of the town, county and State in which he lives, etc.
8. Hymns, verses of scripture, and select passages of prose and poetry, which they can understand, should be committed to memory.
9. Singing common tunes.
10. There is no reason why a blind child should not commence attending the district or other school with his seeing brothers and sisters, and take part in the exercises in spelling, mental arithmetic, geography, etc; indeed, in every thing including reading where furnished with books suitable for the blind.

Blind children can learn every thing which can be taught by conversation, and by giving them an opportunity to examine and handle objects, just as well as those who have sight; and there is no reason why their education should not be commenced as early as that of seeing children. Indeed, instead of being neglected because they are blind, they should be taught with more care. Children who have pursued the course above recommended have entered the institution with as much knowledge and discipline as they could acquire in one or two years of tuition here, and their future progress is much more easy and rapid than that of those who have had no such training at home.

I will furnish a copy of the alphabet, in raised and point print, to the parents of any blind child who will give me their names and post-office address, and shall take great pleasure in giving any information which they may wish in relation to books or other things pertaining to the instruction of such children at home, or in regard to their admission to the institution. For such information, please address H. P. Fricker, M. D., Columbus, Ohio, Superintendent Institution for the Blind.

After pupils have entered the institution, it is important that they should be present every day while they profess to attend. There is but one session in the year. On account of the discomfort and the greater risk of health, etc., to the blind from traveling in winter, it has never been customary to have a vacation or recess at the holidays, and parents are earnestly advised not to encourage their children to think of visiting home at that time. We observe as holidays, Thanksgiving, Christmas, February 22d, and May day. These we endeavor to make as pleasant to the pupils as

possible. Between Christmas and New Year the classes go on as at other times, and scholars can not be absent for a week or more then without great loss to themselves, and great inconvenience to teachers; much greater than would be the case with other scholars, because here the instruction is given almost entirely by the teacher, and the scholar who is absent can not make up the missing lessons by studying them from books. The only possible way is for the teacher to sit down and do all the work over again. If this is not done, the pupil must suffer the inconvenience of his loss during the remainder of the term.

It has been our constant aim to secure to our pupils the greatest possible amount of benefit from the time allowed them here.

If a pupil find it necessary to remain away from the institution for one or more terms, the common or district school should be attended when it is possible. The knowledge gained thus will be found a great help on resuming the studying here.

The blind are, for the most part, to spend their lives among those who have sight. It should be the aim of all who have the oversight of them to render them as much like the seeing as possible. They should be carefully guarded against forming any habits which will be disagreeable to others. The blind are always noticed by strangers, and their manners and habits observed more particularly than those of other persons; hence, it is a very great kindness to them to prevent them from acquiring unsightly habits, or to correct them if such have been formed.

Parents should be especially careful to prevent their boys from forming the useless and filthy habit of using tobacco. Be assured it is no kindness to them to be allowed, for the continuance of the habit here may be a good reason for sending them home to remain there until the habit is discontinued.

Much effort has been used to make the opportunities here provided known to the adult blind, and to induce them to enter as soon as possible after loss of sight. The importance of beginning, as soon as may be, to labor as blind men, can not be over-estimated. Every month's delay renders it more difficult for them to learn, and makes them more awkward, to say nothing of the moral influence of idleness, and the feeling of helplessness and dependence which must attend the person who feels that he is doing nothing for himself or others.

It has been customary to encourage our workmen to locate in the neighborhood in which they are acquainted, rather than to look to the institution for employment. The wisdom of this plan is proved by the experience of every year. A village of a few hundred inhabitants, with the surrounding country population, will usually furnish employment for a broom maker during the year, and the adjacent country will, in most parts of the State, produce all the broom-corn he will need, so that he can obtain his material at very little cost of transportation. For the last twelve or fifteen years hardly an individual of ordinary force of character, who has pursued this course, and labored with perseverance and industry, has failed to make a respectable livelihood, while many have succeeded as well as the average of seeing persons.

The experience of many men warrants the statement that any blind man who has energy, and is disposed to be industrious can in a short time learn to make corn-brooms, and become able to support himself. The machinery necessary to carry on this business costs only forty-five dollars. There are now in this State many blind persons who are earning from two hundred to three hundred dollars, or more, each year, instead of being supported in idleness, at a cost to their friends of two hundred to three hundred dollars per year.

Pupils are expected to be here at the opening of the school term in September. Having been assigned to their classes at the close of the preceding term, delay in returning is unprofitable to the pupil and very annoying to the teacher.

ACKNOWLEDGMENT.

For the following papers and periodicals sent gratuitously to the institution, the proprietors will please accept thanks:

Daily Jeffersonian, Findlay, Ohio; The Home Weekly, Xenia, Ohio; The West Virginia Tablet, Romney, W. Virginia; The Democratic Messenger, Fremont, Ohio; The Goodson Gazette, Staunton, W. Virginia; The Companion, Faribault, Minnesota; Springfield Sunday News, Springfield, Ohio; Cincinnati Weekly Times, Cincinnati, Ohio; The Mutes' Chronicle, Columbus, Ohio; Herald and Presbyter, Cincinnati, Ohio; The Messenger, Talladega, Ala.; Western Christian Advocate, Cincinnati, Ohio.

Terms of Admission, Etc.

Applications for admission should be addressed to the "Superintendent of the Institution for the Blind, Columbus, Ohio," and should state the name, residence, and post-office of the applicant's parent or guardian, and the supposed cause of blindness. Applicants must be between the ages of eight and twenty-one years. Their time in the institution is regulated by the statute of 1879.

Persons over twenty-one years of age, if free from bad habits, can enter the institution for one year to learn a trade. Persons of this class have an opportunity to hear instructive reading in the evening; they are expected to be present at Chapel session in the morning, and to attend church on the Sabbath, like other pupils. A man of active mind, and some acquaintance with the use of tools, can learn to make corn-brooms in six to nine months; some have done it in half that time. Those who have recently lost their sight, and who wish to learn a trade, should come here as soon as possible; every month's delay renders it more difficult to learn.

For residents of the State the school is free, no charge being made for board or tuition; but parents and guardians must provide their children with good and suitable clothing, and pay their traveling expenses, and should also deposit with the Steward a small sum for occasional expenses. For pupils residing out of the State the terms are one hundred and twenty dollars per annum, payable half yearly in advance.

The term commences on the second Wednesday of September, and continues forty weeks. The proper time for admission is at the commencement of the term.

Vacation continues twelve weeks—from the close of the term in June until the second Wednesday of September. Pupils are to spend the vacation at home, or with their friends.

When boxes or packages are sent to pupils, a letter should at the same time be sent by mail, stating distinctly how the same is to come, whether by *stage* or *express*, or as *freight*, and what route.

All letters to pupils should have, after the name, this address—

(Institution for Blind),
Columbus, Ohio.

Report of Financial Officer.

COLUMBUS, OHIO, November 15, 1891.

To the Hon. Board of Trustees and Superintendent:

GENTLEMEN: I submit herewith this, my second annual report as Financial Officer of the Ohio Institution for the Education of the Blind, for the year ending November 15th, 1891, showing the condition of the finances, and also giving a statement of the actual receipts and expenses during the year:

Gross amount current expenses.....	\$42,032 92
Less receipts from other sources than State Treasurer...	\$3,070 09
And estimated value of supplies on hand.....	2,408 00
	5,478 09
Net amount of expenses for the year.....	36,554 83
Salaries of officers and teachers.....	13,024 20
Total current expenses.....	\$49,579 03
Whole amount special appropriations.....	9,513 71
Total expenses for the year.....	\$59,092 74
Average number of pupils in attendance.....	204
Number of household other than pupils.....	76
Total pupils and household	280

The following is a statement of the expenses for the year just closed to provide for the support of pupils on an average, and also a per capita average of the general household fractions omitted:

Expenses salaries included per pupil.....	\$243 03
“ excluded “	179 19
“ included whole household.....	177 06
“ excluded “	130 55

The result as indicated by the above statement is quite gratifying, considering the high prices of fruits and vegetables for the greater part of the year—all kinds of fruits and potatoes being from fifty to seventy-five per cent. higher than last year. Notwithstanding the high prices the best and most wholesome food has been furnished the tables during the entire year.

I wish also to call your attention to the many improvements made during the year just closed. The lawns have been put in first class condition, the handsome shade trees have received proper attention, and additions have been made by planting native elm and maple as memorial trees. During the past year extensive improvements have been made in walks and driveways; during the summer upwards of two thousand yards of acme stone walks were made, and the driveways graveled with screened gravel. The entire front of our extensive grounds now present themselves in excellent condition, and will compare favorably with any in the State. The entire line of iron fence inclosing the grounds has been repainted and now presents an excellent appearance.

Extensive repairs were also made on the main building in a general and specific way; the "walls having been made secure," and the cap stones safely anchored, and the leaky slate roof repaired throughout. The cupola and wings of the building as well as the boiler house received much needed repairs.

The "green house" received a very necessary improvement in the way of new side lights which enhances both its beauty and durability.

During the vacation the carriages and wagons received a thorough repair and are now in good shape—two young and handsome horses were bought during the year—so that the equipment in horses and carriages are now adequate to the wants of the Institution.

During the summer vacation the entire interior of the building was thoroughly renovated, the halls and several of the rooms recarpeted, and the house put in as good sanitary condition as the limited appropriations at our disposal would admit of.

The figures below indicate the supplies on hand in the different departments at the close of the fiscal year ending November 15 1891:

Groceries and provisions.....	\$1,250 00
Coal and other fuel.. .. .	250 00
Brooms and broom material.....	268 00
Beads and bead wire..... ..	145 00
Hay, oats and corn..... ..	35 00
Soap and soap stock..... ..	55 00
Machine and cylinder oil.....	50 00
Postage and stationery..... ..	155 00
Yarns, dry goods and notions.....	200 00
Total.....	\$2,408 00

Receipts from sources other than State Treasury :

Pupils on account of clothing.....	\$299 38
Sale of brooms	760 30
Sale of old horse.....	60 00
Sale of swill.....	20 00
Postage and stationery	124 98
Cane seating, bead and fancy work.....	176 86
Empty barrels.....	34 65
Notions	37 37
Counties on account of pupils' clothing.....	1,485 97
Miscellaneous.....	70 58
Total	\$3,070 09

Respectfully submitted.

J. W. MONAHAN, *Steward*

STATEMENT

Showing condition of various appropriations made during the fiscal year 1890, and the first quarter of the fiscal year 1891, including former balances, and the amounts remaining unpaid November 15, 1891; also showing condition of various funds after deducting liabilities existing at the close of business, November 15, 1891:

Name of appropriations.	Balance in State Treasury Nov. 15, 1890.	Amount of appropriation made during the fiscal year.
